

## The Home-away-from-Home Studio™ @ Airshow Mastering

Sometimes all that stands between you and great mix is the room. Sometimes you need more than your familiar personal studio to bring out the best in your mixes. We designed the Home-away-from-Home Studio™ to provide you with a very well-tuned, comfortable place to record overdubs, to transfer among and between analog and digital formats, or to mix in stereo or surround. Use your own gear or rental gear from Airshow and Wind Over the Earth. Extensive analog and digital cabling between the room and a machine closet gives you flexibility and a quiet work environment. You - and your clients - can enjoy the professional atmosphere and infrastructure of the Boulder Airshow complex, including high speed internet and a coffee bar.

The Home-away-from-Home Studio™ is available for rent by the day or week, at very accessible rates. For rates, please email or call us. For a wiring diagram and a comprehensive list of rental gear, please read on.
